# TracPhone® V3HTS

Ultra-compact marine VSAT with  
expanded network management

## The award-winning, ultra-compact marine VSAT- TracPhone V3HTS from KVH

Optimize business efficiency, profitability, and crew morale with TracPhone V3HTS, the 37 cm Ku-band marine VSAT system that lets you make the most of your time at sea. The award-winning TracPhone V3HTS offers unmatched speed and the power to go farther and faster than ever before with global connections via the mini-VSAT Broadband™ HTS network. Now you and your crew can enjoy the same connectivity experience offshore as you enjoy on land, from KVH, the No. 1 maritime VSAT communications provider.\*

The speed and power for every connection you need onboard.

Photo: Seacat Services

Ultra-compact at 37 cm, lightweight, and packed with power, the TracPhone V3HTS makes it easy for you and your crew to connect with the main office, chat via WhatsApp™, get weather and chart information, browse the Internet, check emails, stream HD content, and more.

This end-to-end SATCOM solution provides:

- ▶ A rugged antenna with high-performance stabilization and tracking
- ▶ Expanded network and data management capabilities
- ▶ An ideal solution for smaller boats or as a streaming fast VSAT backup for larger commercial vessels
- ▶ Data speeds as fast as 6/2 Mbps (down/up)
- ▶ Worldwide coverage and a choice of affordable metered and unlimited use airtime plans that provide:
  - ✓ Monthly data packages designed to fit your needs
  - ✓ Flexible options to switch plans or temporarily suspend service

## The most advanced maritime network available

The TracPhone V3<sub>HTS</sub>, together with KVH's mini-VSAT Broadband HTS network, offers outstanding speed and coverage using new next-generation high-throughput satellites (HTS) from Intelsat and additional capacity from SKY Perfect JSAT, all of which are integrated within the Intelsat FlexMaritime platform.

**KVH's HTS network** with 276 million sq km (more than 106+ million sq miles) of KVH's industry-leading Ku-band VSAT coverage

**A high-speed global network** that delivers speeds as fast as 6/2 Mbps (down/up) to the TracPhone V3<sub>HTS</sub> coverage area

**KVH's Multi-level Cybersecurity Program** offers advanced network-level firewall with automated threat management for additional security and cybersecurity training (training exclusively available to AgilePlans® Regional subscribers)

**Greater resilience to weather and rain fade** than Ka-band services, so you are connected when you need it most

**Crystal-clear, prioritized VoIP service** for exceptional call quality; system also supports Wi-Fi Calling via compatible cell phones†

**Automatic, fast switching** among the network's redundant beams, ensuring seamless and reliable communications wherever you travel

†Requires Wi-Fi Calling support via your cell phone service provider

## mini-VSAT<sub>sm</sub> Manager - creating confidence through control

The secure myKVH™ portal's mini-VSAT Manager suite of tools gives you valuable insight and control over data usage to manage your operational and crew use.

- ▶ Control how your data is used, view real-time usage and history reports, and set up usage alerts.
- ▶ View current and historical vessel tracking data from any Internet-connected device.
- ▶ Ensure that your data is being used for the activities most important to you. The exclusive Category Control tool lets you "allow," "restrict" or "block" data usage in 11 application category groups, including background data applications, to limit unintended data use by software updates or protocols like Apple iCloud®.

## The engine that drives it all

The powerful Integrated CommBox™ Modem (ICM) with its high-throughput modem, Voice over IP (VoIP) adapter, versatile network management software with WAN connection switching, and built-in Wi-Fi and Ethernet, is the streamlined all-in-one belowdecks unit that drives the TracPhone V3<sub>HTS</sub>.

# Bring the best onboard with KVH

Chosen by leading commercial maritime fleets and military and government vessels worldwide, KVH's TracPhone and TracVision® products are relied on for business-critical operations. With more than 200,000 in-motion antennas fielded worldwide, KVH has supplied more satellite communications and TV antenna systems for mobile applications than any other manufacturer. When you choose KVH, you choose the best!

## Stay connected with KVH's global support

### KVH OneCare™

Our global support program protects your VSAT investment and helps you gain a competitive edge. KVH OneCare delivers a comprehensive service offering, including:

- ▶ Application Engineering, Solution Deployment, and Operating Support for the life of your product
- ▶ 2-year parts and labor warranty along with the option for extended warranty coverage for an additional 3 years
- ▶ Support in 4,000 ports worldwide

### KVH IoT Proactive Monitoring

Every TracPhone HTS-series system reports daily on 150+ performance and health parameters to help optimize your system's performance for a premium connectivity experience.

## TracPhone V3HTS Coverage Map

Ku-band Coverage

Anticipated 2021 Coverage

TracPhone V3HTS has a 2-axis stabilized antenna pedestal design that does not provide coverage in areas where the satellite is directly overhead.

The map depicts KVH's expectations for the mini-VSAT Broadband HTS Network's coverage for the TracPhone V3HTS. For the most up-to-date coverage maps, visit [kvh.com/minivsatsmap](http://kvh.com/minivsatsmap). Actual coverage and availability may vary. Data rates may also vary in different regions. KVH provides no guarantees of satellite coverage or availability.
